

## **Addendum to the Stormwater Flood Management Grant Round 1 August 2010 PSP**

**Background:** On October 19, 2010, Senate Bill (SB) 855 (Committee on Budget and Fiscal Review Resources, Chapter 718, Stats 2010) was passed into law. This bill affected the Stormwater Flood Management (SWFM) Round 1 grant solicitation in two ways:

- 1) It re-appropriated Proposition 1E funding that is already reflected in the SWFM Round 1 PSP and,
- 2) It contains a provision that requires additional information from applicants.

This addendum contains those portions of the PSP that are modified due to enactment of SB 855. These changes do not impact how applications will be scored, but they can limit DWR's ability to award SB 855 appropriated funding. All other provisions of the PSP remain unchanged and are still applicable to grant applications. The blue text below shows additions to the PSP and the red-strikeout text shows deletions.

**Page 9, Section III. Funding** - The paragraph is modified as follows:

A total of \$212,000,000 in SWFM funding is available through this first grant round ~~and is discussed in detail below.~~ ((\$145,500.00 from SBX2-1 (CWC Sections 83002. (a)(2) and \$66,500,000 from SB855 (Committee on Budget and Fiscal Review Resources, Chapter 718, Stats 2010)). Of this amount, DWR has the following funding targets to direct the distribution of a portion of the funds. ~~(CWC 83002. (a)(2)).~~

- \$100,000,000 for projects that address immediate public health and safety needs and strengthen existing flood control facilities to address seismic safety issues;
- \$20,000,000 for local agencies to meet immediate water quality needs related to combined municipal sewer and stormwater systems to prevent discharge to State waters;
- \$20,000,000 for urban stream SWFM projects to reduce the frequency and impacts of flooding in watershed that drain to the San Francisco Bay;
- Not less than \$15,000,000 will be allocated for grants consistent with a Stormwater Resources Plan developed pursuant to Part 2.3 (commencing with Section 10560) of Division 6 of the CWC; or, an IRWM Plan that includes the Stormwater Resources Plan requirements specified in CWC Section 10562.

## **Page 14, Section V B Grant Application Checklist (Table 3), APPLICANT INFORMATION AND QUESTIONS TAB** – Q14 and Q15 are added as follows:

Q14. Eligibility: Does the applicant have a Stormwater Resources Plan developed pursuant to Part 2.3 (commencing with Section 10560) of Division 6 of the Water Code, or an IRWM Plan that includes the Stormwater Resources Plan requirements specified in Section 10562 of the Water Code? Please answer yes or no. If yes, please answer Question 15 or 16, as applicable.

Q15. Eligibility: For applicants with a Stormwater Resources Plan, does that Plan meets the standards set forth in Part 2.3 of Division 6 of the CWC? If yes, provide attachment 13.

Q16. Eligibility: For applicants with an IRWM Plan, does that Plan include the Stormwater Resources Plan requirements specified in Section 10562 of the CWC? If yes, provide attachment 13.

<input type="checkbox"/>	Attachment 13	Stormwater Resources Plan	
--------------------------	---------------	---------------------------	--

**Page 21, Section V B 1. Attachment Instructions** – Attachment 13 is added as follows:

**ATTACHMENT 13. Stormwater Resources Plan**

For the "AttachmentName" in the naming convention of BMS, use "StrmrespIn" for this attachment.

This attachment is only necessary if the applicant has an existing Stormwater Resources Plan, pursuant (commencing with Section 10560) of Division 6 of the Water Code and answered "yes" to Q15 or Q16.

The summary text must be no more than 5 pages in length using a minimum of 10-point type font. Excerpts from the Plan must not exceed 15 pages. Attachment 13 must provide the following:

- 1) Identify and include portions of the applicable Plan that demonstrate all of the standards of Part 2.3 (commencing with Section 10560) of Division 6 of the CWC.
